

ASPHALT EMULSION PAVEMENT SEALER

Today, your asphalt pavement is more valuable than ever. And now, you can protect your investment with a tough and durable coating that is also environmentally friendly. PaveShield is a polypetrol resin emulsion specifically formulated as a weather protective, water resistant coating for all asphalt surfaces. PaveShield extends the service life and reduces maintenance costs of asphalt pavements, protecting them from the destructive effects of water, sunlight and oxidation.

PaveShield protects, preserves and beautifies asphalt pavement while being environmentally safe.

• TOUGH & DURABLE

Duraflex, the proprietary high molecular weight polypetrol resin in PaveShield, creates tough and long lasting protection.

• PROTECT & BEAUTIFY

A tight seal forms an impenetrable barrier to protect against the destructive effects of sun, water and chemicals, giving pavement a deep black color.

• SUPERIOR BOND

Chemically reinforced with Duraflex, enhancing the adhesion to the asphalt pavement, rejuvenating the surface and preventing raveling.

• ENVIRONMENTALLY FRIENDLY

A low VOC, non-flammable coating that emits no obnoxious odors or fumes and contains no coal tar to irritate skin.

• COOL WEATHER FORMULA

Engineered to perform at temperatures as low as 40°F.

PaveShield
Cool Weather Formula

Neyra Industries has been a leader in the pavement maintenance industry for over three decades. It is our passion to develop high quality products that exceed industry standards. PaveShield and other Neyra products are available nationally at our plants and through distributors and contractors.
