NEYRA[®] POLYPRO[™]

ASPHALT PAVEMENT SEALER

Experience the NEYRA difference

READY-TO-USE COAL TAR PAVEMENT SEALER

Neyra PolyPro is a premium-quality, ready-to-use pavement coating composed of refined coal tar that is fortified with rubber prior to emulsification. In addition, Neyra PolyPro contains a unique surfactant formulation which allows greater compatibility with asphalt surfaces.

WHY ASPHALT PAVEMENT DETERIORATES

- ▶ Unprotected pavement is damaged by environmental effects.
- ▶ Sunlight, moisture and gasoline leave surface gray, open and porous.
- ▶ Moisture is allowed to penetrate. Hydraulic pressure and freeze-thaw increases the size of the cracks.
- ▶ Aggregate washes away and cracks grow larger.
- ▶ Pavement begins to fail.

HOW NEYRA POLYPRO SEALER PROTECTS

- ▶ Shields against the drying action of the sun and ultraviolet rays.
- ▶ Protects against the number one pavement-destroying force: water.
- ▶ Resists damage caused by gasoline, oil, leaks and spills.
- ▶ Bonds firmly to the surface to provide an even-textured, durable barrier.
- ▶ Restores that rich, black look of new pavement.

NEYRA POLYPRO SEALER ADVANTAGES

- ▶ **ULTIMATE PROTECTION**
The high solids, polymer modified formula provides increased resistance to oil, gasoline and chemicals.
- ▶ **MAXIMUM DURABILITY**
You can expect up to three times the wear of other pavement coatings.
- ▶ **EASY TO USE**
Neyra PolyPro comes in a ready-to-use formula.
- ▶ **SAFER & EASIER TO CLEAN**
Neyra PolyPro creates a seamless, skid-resistant and even-textured surface.
- ▶ **RICH, BLACK "BRAND NEW" LOOK**
PolyPro's tough, tight, waterproof seal is the longest lasting pavement coating.

FOR OVER 50 YEARS...

Neyra Industries has been a leader in the pavement maintenance industry. It is our passion to develop high quality products that exceed industry standards and meet the individual needs of our customers.
